Project Overview

As per discussion, we propose to develop a **Fully Offline Windows-Based Desktop Application** for managing your complete business operations including Inventory, Billing, Customers, Payments, and Orders.

The system is specially designed to match your current workflow where:

- Orders are received via **WhatsApp** or **Manual Parchi**
- Orders are entered into the system by **Owner or Staff**

This ensures **no change in your existing process**, but full digital control and tracking.

Key Advantages of the System

- Fully **Offline Software (No Internet Required)**
 - Fast, reliable, and secure performance
 - Designed for **factory / warehouse operations**
 - No dependency on external apps or servers
 - **Backup & Restore system for complete data safety**
 - Optional **multi-user access (LAN based)**
-

Scope of Work

1. Product Management

- Category & Sub-Category Management
 - Product Management
 - Master Packaging
 - Attribute Management
 - Pricing Controls
 - Discount (Percentage / Flat)
 - Customer-specific pricing
 - Bulk price update
-

2. Inventory Management

- Real-time stock tracking
 - Low stock alerts
 - Product availability status
-

3. Customer Management

- Customer database
 - Outstanding payment tracking
 - Customer-wise pricing
-

4. Order Management

- Manual order entry (WhatsApp / Parchi based)
 - Order tracking & status
 - Order history
-

5. Invoice & Billing

- GST-ready invoice generation
 - Print invoices
 - Billing history
-

6. Payment Management

- Payment entry
 - Outstanding balance tracking
 - Payment reports
-

7. Reports & Analytics

- Sales reports
 - Inventory reports
 - Payment & outstanding reports
-

8. Data Backup & Security

Backup Features

- One-click manual backup
- Automatic scheduled backup (daily/weekly)
- Backup storage in local system / external drive

Restore Features

- Easy data restore in case of system failure
- Safe migration to new system if required

Security

- User-wise access control (Admin / Staff)
 - Basic activity tracking
-

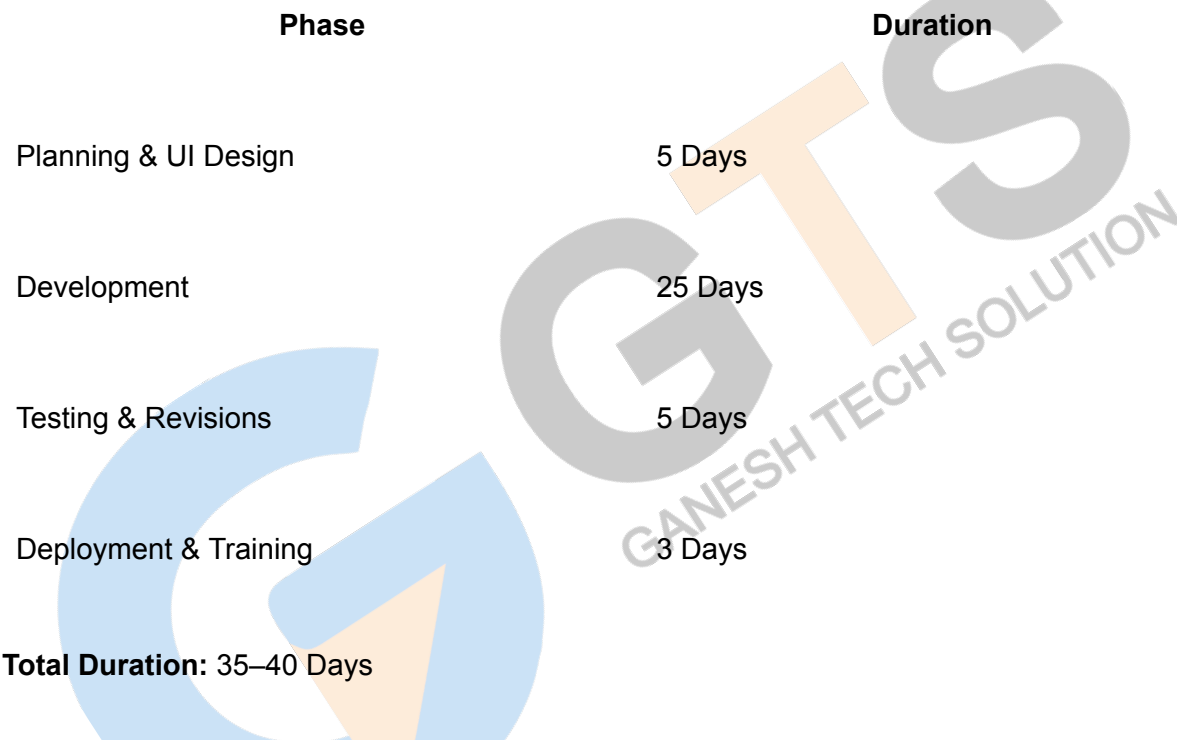

9. System Utilities

- Export data (Excel / PDF)
- Print support for invoices & reports
- Easy-to-use interface for staff

Technology Stack

- **Application:** C# with WPF (Windows Desktop)
 - **Database:** SQLite Server (Local Database)
 - **System Type:** Fully Offline (Optional LAN Support)
-

Project Timeline

Project Cost Breakdown

Sr. No.	Description	Amount
1	Desktop Application Development (C# WPF)	₹ 1,50,000
2	Inventory & Order Management System	₹ 45,000
3	Billing, Invoice & GST Module	₹ 40,000

4	Customer & Payment Management	₹ 40,000
5	Reports & Analytics	₹ 40,000
6	Testing, Deployment & Training	-

Total Project Cost	₹ 3,15,000
---------------------------	-------------------

GST (18%)	₹ 56,700
------------------	-----------------

Grand Total	₹ 3,71,700
--------------------	-------------------

Payment Terms

- 20% Advance (Project Start)
 - 30% During Development
 - 30% Final Testing
 - 20% Before Final Delivery
-

Additional Notes

- Software will be provided with **Windows Installer Setup**
 - Fully **Offline System with Backup & Restore**
 - Optional LAN-based multi-user system available
 - Basic training will be provided to staff
 - 3 Months Free Support Included
 - Any additional feature outside scope will be chargeable
-
